

## **Bulldogs with Documented Herding Instinct Certification (HIC)**

Compiled by Bea Page Listed in chronological order.

Dogs that pass a Herding Instinct Test (HIT) do not earn an official title, but rather are provided with a certificate to document a successful result (HIC - Herding Instinct Certified). In general, there will be a round pen with a few sheep in it that are experienced with being herded. The dog will be taken into the pen (on lead) by the tester (a Herding judge or trainer) and evaluated for how the dog and sheep react to each other. In particular, the tester will assess the dog for its interest in the livestock and in working with the tester to get the sheep to move together in the desired direction without inappropriate aggression or what appears to be simply chasing.
